Subject: RE: Neuhauser Landfill Site - EPA approval of Final Report

Dear Patrick – You are correct, EPA's expectation is that any post-removal site controls will be conducted pursuant to CDPHE's Order with Stratus. EPA is not contemplating requirements for post-removal site controls under EPA's Order.

Please do not hesitate to contact me with any questions.

Sincerely,

Joyce Ackerman

Subject: RE: Neuhauser Landfill Site - EPA approval of Final Report

Good morning Joyce,

There is one item from the approval letter of the Final Report where I seek clarification. As you know we have entered into an order with the Colorado Department of Public Health and Environment, and we are currently undertaking the tasks set forth therein. Could you please confirm that other than complying with the state order no other Post Removal Site Controls are contemplated by the Settlement Agreement?

Thanks,
Patrick
